

Dave Lennox *Signature*[®] Collection XP17 Heat Pump

Quiet operation

- » **The quietest heat pump you can buy***
- » **Approximately 40 times quieter** than a standard heat pump
- » **SilentComfort™ technology** delivers the ultimate in quiet, consistent cooling and heating

Home comfort

- » **Scroll compressor** helps precisely control air temperature for greater comfort

Energy efficiency

- » **The most efficient single-stage heat pump you can buy****
- » **Up to 17.70 SEER and 9.50 HSPF** efficiency ratings
- » **ENERGY STAR[®] qualified***** – meets or exceeds EPA guidelines for energy efficiency
- » **Dual-fuel** capable†

Environmentally responsible

- » **Chlorine-free R-410A refrigerant** provides exceptional comfort without exacting a costly environmental toll

Reliable performance

- » **SilentComfort motor with composite fan blades** – provides extremely reliable starting and running performance, even under the harshest outdoor conditions
- » **Quality you can trust** – constructed of heavy-gauge, pre-painted steel and tested in the most extreme environments to ensure maximum durability
- » **10-year limited warranty** on compressor and covered components

Optimize your system

- » **SunSource™ solar-ready design** – allows you to maximize energy-savings by integrating one to 15 solar modules
- » **icomfort™-enabled technology** – allows the XP17 to exchange information with other home comfort system components and make adjustments to optimize performance
- » Compatible with the exclusive **Humiditrol[®] whole-home dehumidification system†**

As testament to the efficient performance of the XP17 it has earned the ENERGY STAR label, which means it meets or exceeds guidelines set forth by the U.S. Environmental Protection Agency.

Choosing an ENERGY STAR qualified product like the XP17 can improve your comfort, while also helping you save energy and money. For other ways to make your home more efficient, visit ItPaystoLiveSmart.com.

*Air conditioners/heat pumps have sound ratings established per AHRI's test standard: AHRI 270. Size for size, as a product family, these air conditioners/heat pumps have the lowest published sound ratings of any major U.S. brand of air conditioning/heat pump equipment.

**Efficiency claim based on comparison of single-stage air heat pump products' SEER and HSPF as published in AHRI (December 2009). Actual system efficiencies may vary. Consult a Lennox dealer or AHRI for exact system efficiencies.

***Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your Lennox dealer for details or visit www.energystar.gov.

†Must be accompanied by either a variable speed air handler or furnace and the icomfort™ Touch or ComfortSense[®] 7000 Series touchscreen thermostat.

This page is for summary purposes only. Please refer to Lennox product literature for full details.

The XP17 may be eligible for government tax credits, as well as rebate programs from local utility companies. Please consult your tax advisor for more information.
